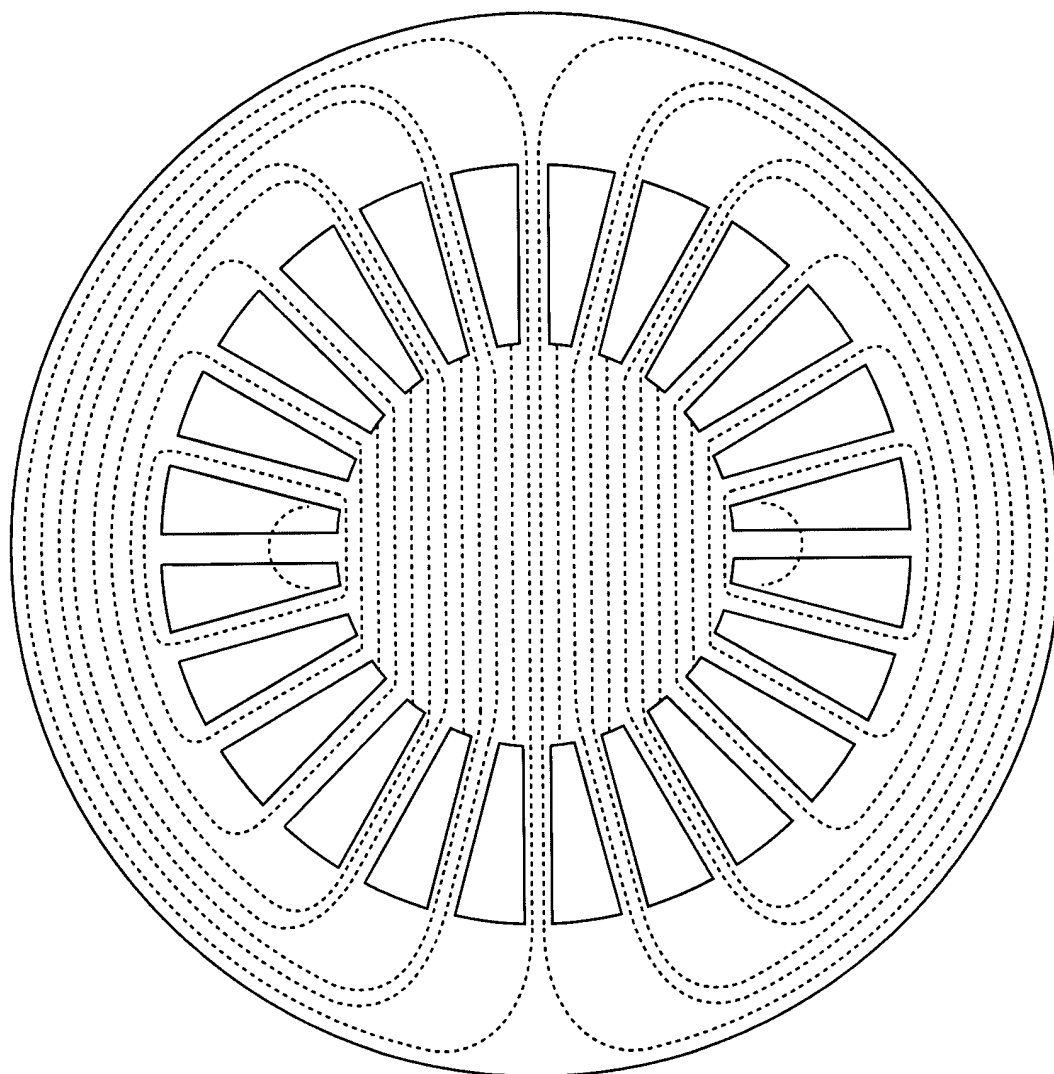

**FIG. 3**

Figure 9 consists of two parts, (a) and (b). Part (a) shows a circular arrangement of 24 rectangular elements, each with a black outline and a light gray fill. These elements are positioned radially around a central point, with their long sides oriented towards the center. Part (b) shows two concentric circles, both with black outlines. The outer circle has a larger radius than the inner circle, creating a uniform annular region between them.
